## HIKING SAFETY - BE SAFE TOGETHER

- Hiking outside our designated trail system is dangerous. You may encounter various hazards such as steep slopes, snow, avalanches, ice fields and glaciers, crevasses, rock falls, and unstable surfaces.
- Hiking outside the area boundary is not recommended unless you have experience and are well equipped.
- Hiking down from both lodges on roads, mountain bike trails, Blackcomb ascent trails and other routes is not permitted. Downloading on the Whistler Village Gondola or Blackcomb Gondola is mandatory.
- Due to the sensitivity of the alpine environment, trail accessibility may be limited by snow pack and weather conditions. Observe all closures. Up to date trail conditions can be found on our Website, Trail Fork app, and by asking Guest Services.
- Be prepared, mountain weather changes quickly and there is usually at least a 10 degree temperature difference from the bottom to the top of the lifts. Bring a raincoat and consider a sweater or fleece. Drinking water is only available at our restaurant, we recommend to carry water with you.
- Respect the fragile alpine ecosystem. Stay on marked trail, do not litter and bring back your garbage with you.
- Afternoon thunderstorms are common in the mountains. Take proper precautions when you see or hear a storm developing: Seek shelter, keep off ridgelines, and stay clear of chairlift houses, lift towers, power lines, open spaces, lone trees and signposts. Lifts may close on occasion, causing delays.

### BE BEAR AWARE

We are lucky to have Black bears calling Whistler and Blackcomb mountain home. And you might encounter one or several bears while hiking on our mountains.

Bears are generally afraid of people. They rarely attack humans unless they feel threatened or provoked by people. Review these bear viewing rules to avoid dangerous confrontations.

**Stay at a safe distance**

- Stay at least 100 metres/ 300 feet from any bear.
- Never approach or challenge a bear.
- Resist your urge to get closer for a better view or an even more perfect picture

**Never EVER feed a bear!**

- By feeding a bear, you teach the bear to associate people with food.
- Fed bears become problem bears as they lose their natural fear for people.
- Bears that have lost their natural fear for people will get bold and dangerous.
- A fed bear often ends up as a dead bear (euthanized by a provincial conservation officer).

**Always give the bear the right of way**

- If you spot a bear ahead of you on a hiking trail, stay calm and back away slowly.
- If retreating is not an option, make a large detour while you stay at least 100 metres/300 feet away from the bear.
- PETS are not allowed on Whistler Blackcomb recreation area. We only welcome accredited guide and service dogs on our property. Please check with guest service prior to access the mountain.

Report aggressive Bears to our Alpine patrollers at 604-935-5555
