* Be aware as conditions on the mountain do change, so adjust your usage accordingly.
- 2.** * People ahead of you have the right-of-way. It is your responsibility to avoid them.

* Do not pass people too close at high speed, you may not be able to avoid them if they fall or make an unexpected sharp turn. Be aware Snowboard riders have a blind side and may not see you on that side. Snowboarders have to check their blind side before turning across a busy ski run and make sure they are not turning into a fast skier. There are regular collisions on ski hills do your best to avoid these situations.
- 3.** * Do not stop where you obstruct a trail or are not visible from above.

* Stopping under convex rolls should be avoided at all time as others cannot see you. If you fall and have to stop in such a place, have someone stop above you to protect you from on-coming traffic. Crossed skis or arms designate this temporary detour.
- 4.** * Before starting downhill or merging onto a trail, look uphill and yield to others.
- 5.** * If you are involved in or witness a collision or accident, you must remain at the scene and identify yourself to Ski Patrol.

* It is important to give clear information for First Aid purposes.
- 6.** * Always use proper devices to prevent runaway equipment.

* It is your responsibility to have functioning ski brakes, snowboard retaining devices and make sure your gear is secure when taken off your feet. A runaway ski or snowboard is very damaging if it impacts with another person and you will be found personally liable for any damage caused by your equipment.
- 7.** * Observe and obey all posted signs and warnings.

* Also use common sense for your safety and the safety of others. Realize that signs do change with conditions.
- 8.** * Keep off closed trails and closed areas.

* Areas are closed for a good reason, conditions are not safe to proceed or not adequate to pursue your current activity. It is our goal to have all the terrain available for your enjoyment.
- 9.** * You must not use lifts or terrain if your ability is impaired through use of alcohol or drugs.
- 10.** * You must have sufficient physical dexterity, ability and knowledge to safely load, ride and unload lifts. If in doubt, ask the lift attendant or Ski Patrol.
