

Village Access

On Mountain Access

High Alpine Clearance Required

Garibaldi Provincial Park Boundary

**Starting in the Village**  
Uphill skiing and snowboarding access to Garibaldi Provincial Park is permitted on the Singing Pass trail from Whistler Village. The Singing Pass trailhead is located in the Gondola Transit Exchange.

**Starting on the Mountain**  
Skiers and snowboarders looking to access the backcountry terrain adjacent to Whistler Blackcomb's ski area boundaries can do so via the chairlift system and designated uphill travel routes when operations and avalanche conditions allow.  
When the high alpine lifts are closed due to avalanche danger, backcountry skiers and snowboarders should check in with Patrol 1-604-905-2324 at the dispatch offices on Whistler or Blackcomb for more information on how to safely access the backcountry.

**Re-Entering the Ski Area Boundary**  
Skiers and snowboarders looking to re-enter Whistler Blackcomb's ski area boundaries from the backcountry should check in with Patrol 1-604-905-2324 for up-to-date avalanche conditions and terrain closures within the ski area boundary.
