Location & Dates

About

Showcasing awe-inspiring **snow sculpture exhibitions** around the world for the last 25 years, Ice Kingdom has footprints in Asia, Europe, and various parts of the United States. Specializing in creating intricate displays that consistently wow audiences, testing the limits of imagination is our business.

A history born out of family and community values

Snow sculptures in China started around 300 years ago as past-times for families during the seven-months long winter in Harbin. Adults would carve simple toys out of snow for their children to play with, which eventually evolved into a friendly competition to see which family could display the most intricate piece of art.

Jaw-dropping snow sculptures like you've never seen before!

Interactive features including a snow maze and a children's snow slide

40,000 square feet to explore with over 50 different attractions.

Hand-picked food vendors selling a variety of options.
